Firstly I think Kate is terrific! salt is the only magazine on the coast that is of a higher calibre than the plethora of sub standard parochial publications on offer. The print quality as with the service rendered, is excellent. Articles are mostly interesting and are read with vigour by the locals and tourists alike. I have found a positive response with our discerning clients to salt editorials and our advertising in the magazine.

I also wanted to say Kate that the decision to advertise with salt has really paid off for Soul Diva. We get immediate and tangible results from our advert placements and know that this is one magazine that works for us on the sunny coast.

We chose to advertise with salt magazine because it is a well laid-out, attractive publication that isn't overfilled with advertising and always has well-written, interesting content. We have advertised with salt for over a year now, and its service is always friendly and always quick to respond to any enquiries. We also love the fact that salt magazine is available at particular places that other publications are not. We have had a great response from the advertisement we placed in salt magazine and we are always having to replenish our magazine stocks as they go out so quickly!

It is a very rare occasion that we get to work with publishers of a product who are actually interested in the integrity of their magazine. We usually find a pushy salesman wanting your money for advertising in their glossy mags! We have found you both to be approachable and passionate about your product 'salt'. Since becoming an advertiser with your magazine we have had many an enquiry about our gallery from locals and interstate visitors. Recently we sold a \$9,000 Mel Brigg artwork from your ART SPACE free advertising page! It is the only magazine that gives our coast art scene a heart beat. We always eagerly await the next editions and find our customers too looking for their copy! Thank you and keep up the excellent work we look forward to a long relationship with your publication.
